

## Member Payment

Member Payment is an intelligent service enabling frequent and loyal online shoppers to deviate from the long and tedious process of entering their personal and credit card details every time they make an online purchase. This membership-type service will automatically store your customers' details leaving them with only 3 things to remember -- their login name, password and CVV code.

Member Payment increases your conversation rates by simplifying the checkout process

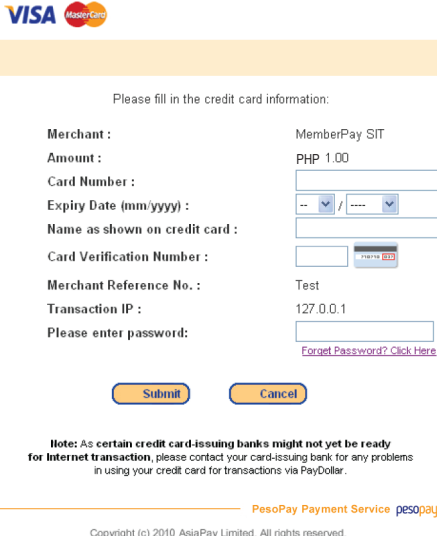

### Features

- ❖ Payment with password and CVV
- ❖ User-friendly and intuitive interface
- ❖ Group management
- ❖ Member management
- ❖ Reporting tools

### Benefits to Businesses

- ❖ Advance online transaction security by applying a membership login to a specific website thereby, eliminating credit card details handling process
- ❖ Dual password security protection by requiring a personal password and credit card CVV code for each transaction
- ❖ Express online payment tools to facilitate merchant membership scheme for earning customer loyalty
- ❖ Improve sales efficiency by streamlining the checkout process and sales procedure therefore, improving customer satisfaction
- ❖ Easy integration and management
