Comprehensive ◦ Integrated ◦ Secure

eVoucher

eVoucher is an encompassing solution that addresses the needs of merchants for marketing their business through the use of electronic vouchers and coupons. It enables merchants to create, distribute, redeem and track electronic vouchers or coupons in one platform thereby making the whole process seamless.

Features

- Option for online and offline use
- Generate eVouchers that has a single static code or dynamic codes
- Supports fixed discount or percentage based eVouchers
- Definable the expiry date of the eVoucher
- Set a minimum transaction amount in order to activate the eVoucher module
- e-Voucher generation with Barcode or QR code
- Can be used exclusively or transferrable
- Set the maximum number of use
- Customizable layout

Benefits

- One platform for creating, distributing, processing and tracking of eVouchers
- Additional communication medium to market a merchant's name, brand and special offers
- Generate additional revenue at holiday times such as Christmas, Valentines Day and Mothers Day.
- The cost for issuing eVoucher is much cheaper and more convenience to send out to target customers through email and SMS.
- Seamless integration with AsiaPay's payment platform that requires minimal integration effort
